## Personal Statement

I am friendly, confident & find it easy to communicate in team situations. I lead when necessary & enjoy handling responsibility. I can offer ideas, solutions & suggestions, & articulate them effectively.

I thrive in educational situations. I have a mature approach to education or work & am excited about being able to pursue a career in filmmaking - an area which interests & challenges me, where I can use my knowledge to positively contribute.

I am a skilled photographer & shoot both 35mm film & digital. I develop black & white film & enjoy educating myself on all aspects of photographic practice.

I regularly read books & enjoy gaining knowledge from both fact & fiction. This in turn inspires my scriptwriting, which I specialised in during my degree.
